- Optimized product pages, increasing clicks and sales conversions by 28%.
- Developed an AI-powered virtual try-on feature that boosted customer engagement.
- Improved mobile performance, product layouts, and CTAs for higher retention.

PROJECTS

Productive Social Media

- High-Performance Architecture:** Designed a scalable REST API using Object-Oriented Design principles in FastAPI; implemented Redis caching to serve leaderboards with sub-millisecond latency.
- System Reliability:** Ensured zero-downtime updates using Docker and CI/CD pipelines; validated system stability with Pytest coverage and Locust load testing.
- Async Processing:** Offloaded complex data aggregations to Celery workers to maintain a responsive user experience.

My Homely Cakes - [Link](#)

Overview : Full-stack Next.js e-commerce website for a Trivandrum home bakery

- Product catalog, cart system, and Google Sign-In
- Mobile-first design with smooth order flow
- Live production site serving real customers

Koachi Classifides – [Link](#)

Overview : Directory for local businesses, services and professionals across Fort Kochi same as justdial

- Developed a secure **Role Based Authentication** for user using Next.js, TypeScript, Tailwind CSS, Prisma, and PostgreSQL
